Quick Start Guide- PsycBOOKS

PsycBOOKS includes over 38,000 chapters in PDF from over 2,500 books, published by the APA and other distinguished publishers, and includes digitized content of historical significance from the Archives of the History of American Psychology (AHAP) collection. It also contains over 1,600 classic books of landmark historical impact in psychology dating from the 1600s, and more than 1,500 authored entries from APA/Oxford University Press Encyclopedia of Psychology.

This guide is intended to help you start searching the database and to save, print or email chapters you find. You can get further help by clicking on this icon  while you are in the database.

Searching

There are Basic and Advanced Search options. Take a few moments to have a look at these different screens, and see which works best for you and the research you are doing.

The Basic Search Screen

Search Modes

Within the Basic search screen you can conduct your search in different ways using the search modes. Click the  icon within the database for further help.

Boolean/Phrase – If this is selected you can use AND, OR and NOT in the search box to refine your search. It also allows you to use quotation marks for an exact phrase.

Find all of my search terms – adds AND to all search terms entered (e.g. web AND accessibility).

Find any of my search terms – adds OR to all search terms entered (e.g. web OR accessibility).

SmartText Searching - You can copy and paste chunks of text (up to 5000 characters including spaces) to search for results.

The Online Library

Senate House Library, University of London

Apply equivalent subjects – when your search term matches a known concept, the search is expanded to include that concept. For example if you search ‘workplace injury’, the search will also include results for ‘work-related injuries’ and ‘occupational injuries’.

Apply related words - includes synonyms (words with the same or a similar meaning) and plurals of search terms.

Also search within the full text of articles - select this to look for your terms in the whole chapter not just the abstract and citation.

Limit your results

Limit your results

<p>Full Text <input type="checkbox"/></p> <p>Publication Year [] - []</p> <p>Age Groups All Childhood (birth-12 yrs) Neonatal (birth-1 mo) Infancy (2-23 mo)</p> <p>Intended Audience All General Public Juvenile Psychology: Professional & Research</p>	<p>References Available <input type="checkbox"/></p> <p>Published Date Month [] Year: [] - Month [] Year: []</p> <p>Population Group All Human Animal Male</p>
---	---

You can narrow down your search by placing limits on it.

- **Full Text** – select if you only want full text chapters
- **Published Date** or **Publication Year** – use if you want to search a specific time range
- **References Available** – select to only see chapters that list all the sources used and consulted when writing the chapter

Select from the drop down menus and hold down the ‘Ctrl’ key to select more than one. Use these to tailor your search to fit the topic you are studying, for example you can search for studies or chapters about a particular age group.

AND ▾	<input type="text"/>	Select a Field (optional) ▾		
AND ▾	<input type="text"/>	Select a Field (optional) ▾	<input type="button" value="+"/>	<input type="button" value="-"/>

[Basic Search](#) [Advanced Search](#) [Search History](#)

Advanced Search allows you to narrow or expand your search results more easily by using AND, OR or NOT. You can also select a field, such as title, author or keywords. Click the + symbol to add more rows.

As with the Basic Search you can use the ‘Search Modes’ and the ‘Limit Your Results’ feature. With Advanced Search, there are more limiters you can use, such as ‘Methodology’ and ‘Book type’. You can also search by book or by chapter.

Browse by books

You can browse by books by clicking on **Books** at the top of the page.

Predicting performance outcomes from the manner of stereotype activation and stereotype content.

Authors: Shih, Margaret, Anderson School of Management, University of California-Los Angeles, Los Angeles, CA, US, margaret.shih@anderson.ucla.edu
Wout, Daryl A., John Jay College, City University of New York, NY, US
Hambarchyan, Mariam, Graduate School of Business, Stanford University, CA, US

Address: Shih, Margaret, Anderson School of Management, University of California-Los Angeles, 110 Westwood Plaza, A416, Los Angeles, CA, US, 90095, margaret.shih@anderson.ucla.edu

Source: Asian American Journal of Psychology, Vol 6(2), Jun, 2015. pp. 117-124.

Publisher: US : Educational Publishing Foundation

ISSN: 1948-1985 (Print)
1948-1993 (Electronic)

Language: English

Keywords: stereotypes, academic performance, stereotype threat, stereotype boost

Abstract: The relationship between activation of positive stereotypes and academic performance is not clear. Some studies have found that the activating of positive stereotypes boosts performance, whereas other studies have found that it hurts performance.
