

Quick Start Guide for IngentaConnect

IngentaConnect offers one of the most comprehensive collections of academic and professional research articles online - some 4 million articles from 11,000 publications.

This guide is intended to help you start searching the database.

Searching

There are Basic and Advanced search options. Take a few moments to have a look at these different screens, and see which works best for you and the research you are doing.

Basic Search

Locating a journal article - if you know the title of the article and author you can enter these details in the basic search box to retrieve the full text. If you want to, you can click on 'Search by' and select one of the options to narrow your search. For example, you can type the author's name, then select 'Search by Author' to see articles written by that author.

OR

Enter your search keywords into the basic search box, then click on 'Advanced search' on the right to improve your search.

Advanced Search

Advanced Search

Enter **one or more** search criteria below. Boolean AND, OR and NOT are supported for article title, keywords and abstract searches, with quotation marks ("") to find an exact phrase, and asterisks to match partial words in fields marked with a (^).
